

## Press release

London, Friday 12 September 2008

---

### **Investor and analyst site visit to Schrader Electronics facility, Northern Ireland**

Tomkins is today hosting a site visit at its Schrader Electronics facilities in Antrim and Carrickfergus in Northern Ireland.

Senior management will give a number of presentations on the Schrader Electronics business, followed by a guided plant tour of both facilities.

No material new information or update on trading will be provided.

The slides from the presentations will be available from 7am on the Tomkins website at [www.tomkins.co.uk](http://www.tomkins.co.uk).

#### Notes to the editors:

Schrader Electronics is the market leader in the production of remote tyre pressure monitoring systems and is headquartered in Antrim, Northern Ireland. The business forms part of Tomkins plc's Industrial and Automotive group and has over 1,000 employees. Schrader Electronics has three manufacturing facilities: two in Northern Ireland and one in the US.
